

ATLANTA 3

The Atlanta 3 is a fantastic storage building made from 28mm thick interlocking tongue and groove logs. The building has a single door as the entrance and a single window which allows plenty of light inside of the building owing to the single glazing and in the door and the window. The building has tongue and groove 19mm floor and roof boards which are perfect for using for storing light gardening tools or equipment like drills or even a lawnmower.
