

GEORGIA

This unusual yet unique and practical building doubles as a covered hot tub or outside dining area with a small storage area. Perfect for relaxing, this large covered area provides a 3.7m long x 3.5 wide overhang from the storage and garden room so plenty of room and light for a hot tub, dining table or garden furniture for family gatherings and other similar events. Georgia is a delightful model that can let you truly appreciate the finer things in life in the extended patio area that is included.
